

ARLON

Self-Fusing Silicone Tapes

FROM -54°C TO +260°C
TEMPERATURE RANGE
SELF-FUSING
SILICONE TAPE

APPLICATIONS

- Automotive Repair Tape
- Bicycle and Wheelchair Handle Wraps
- For "Form Fitting" Wraps
- Turnbuckle Protective Wrap
- Temporary Applications
- Protection Against the Elements
- Coolant Line Repairs
- Lead Insulation
- Vibration Protection for Hoses and Pipes
- For Whipping Rope Ends
- Temporary Hose Clamp Applications
- No Residue "Masking Tape" Uses
- Sailboat Chafe Protection
- Flexible Repairs
- Oil and Contaminant Protective Wrap
- Heating Element Wrapping
- Toggle Bolt Wrap
- Auto Exhaust Wrapping
- Insulating Motor Coils
- Terminal Splicing Protection
- Industrial Applications
- Emergency RV Repair Tape
- Pipe Wrap For Corrosion Protection
- Electric Fence Insulation Wrap
- Wire Rope Wrapping
- All Purpose Repair Tape
- Insulation for Radioactive Environments
- Marine Harness Wrapping
- Jumper Cable Grip/Insulation
- Hydraulic Fitting Protection
- Hot Air Duct Repairs
- Farm Repairs
- Primary Insulator for High Temp. Applications
- Diving Industry Uses
- Transformer Insulation
- Golf Club "Putter Grip" Wrapping
- Shovel Handle Wrap
- Jacketing High Voltage Terminations
- Motor Lead Insulation
- Boat Rigging Wrap
- Flexible Heater Repairs
- Extension Cord "Connection" Wrap
- Heavy Duty Industrial Pipe Wrap
- Tool Handle Wrapping
- "Final Wrap" for Electrical Distribution Connections
- For Use as a "Mast Boot"
- Replaces Heat Shrinkable Tapes/Sleeving
- "Bandages" Splintery Boat Rails
- Primary Cable Insulation
- Emergency Hose/Pipe Repairs
- Bus Bar Insulation
- Cooling System Repairs
- Radio/Loran Connection Protection
- Fishing Rod Guide and Grip Tape
- Protecting Boat Wiring
- Wrapping Irregular Shapes
- Marine Hose Repairs
- Emergency Insulation Tape
- Emergency Insulating Barriers
- Boat Power Hook-up Protective Wrap
- Electrical Insulation Uses
- Coil Encapsulation
- For Protective Over wrapping
- Garden Hose Repairs
- Boat Deck Fitting Wrapping
- Fishing Industry Uses
- Wiring Harness Protective Wrap
- Home Repairs
- Boating Applications
- Emergency Plumbing Repairs
- Aircraft Harness Wrapping
- Emergency Radiator Hose Repairs
- Rewraps Sailboard Wishbones
- Military Applications
- RV "Hook-up" Protective Wrap
- Jet Ski Electrical Protection
- Vacuum Cleaner Hose Repairs
- Salt Waterproof Wrap
- Insulating Generator Coils
- Power and Hand Tool Insulation
- Underwater Uses

TYPICAL PROPERTIES

- Thermal Stability** : 356°F/180°C
- Temperature Range** : -65°F to +500°F (-54°C to +260°C)
- Volume Resistivity** : 10^{13} ohm-cm min. (ASTM D257)
- Self Adhesion** : 2 p.p.i min. (3.5 N/cm) (ASTMD2148)
- Hardness** : 50±10 Shore A (ASTM D2240)
- Moisture Absorption** : 0.9% (46 hrs. in H₂O @ 70°F)
